

Keen to be Green

1. Make a leaflet informing people on how they could be more eco-friendly in their daily life. Remember to be helpful - not rude!
2. Create a fact-file about an animal that is affected by climate change or deforestation e.g. a polar bear. How is their life affected? What is being done to help them?
3. Get creative and use recycled rubbish items to create a junk model of anything you like! Make sure you clean everything thoroughly and do not use any glass or sharp items.
4. Make a persuasive poster advert encouraging others to donate money to a charity for endangered animals.
5. Design a Keen to be Green super hero!
What would their powers be?
What would their catch phrase be?
How would they travel around?
What would their costume be made out of?
6. Write a diary entry through the eyes of a jungle animal whose home is being cut down as a result of deforestation.
How do you feel?
How does the affect your life?
