

Year 6

Autumn Term 1st Half Homework

The History of Communication

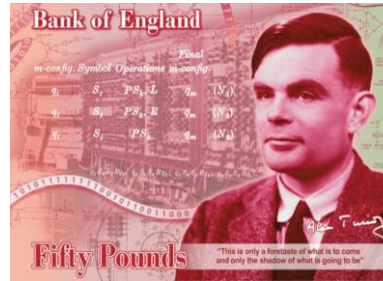

(WWII focus)

Please choose **ONE** project task to complete in detail. We expect this to be a **high quality** piece of work which you have taken time and effort over. We suggest you split your time up working on this project into:

- Researching
- Planning
- Presenting

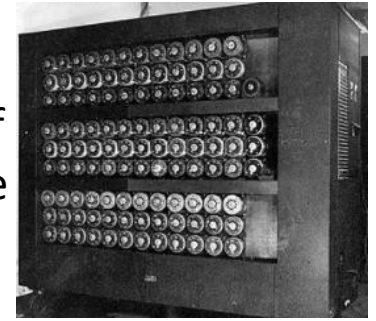

We only expect to see the finished result which must be completed by the week beginning 11.10.21.

All completed tasks should be uploaded to Seesaw either as a PDF document, video or photograph (or if you have problems with Seesaw work can be emailed to schoolteachers@pixmore.herts.sch.uk)

1. Research **Alan Turing** and why he is on the new £50 note! Make a presentation all about him.

2. Find out about the **Enigma machine** and **Bletchley Bombe** and make a replica model of one of them. Include a plaque, which could be displayed with it to explain what it is.

3. Visit **Bletchley Park** and write a recount of your trip and what you learn.

4. Keeping important information secret in WWII was really important. Research different **propaganda posters** used to remind people not to give away important information to the enemies and create your own propaganda poster in the same style.

5. Surprise the teacher- create a project of your own choice all to do with Bletchley Park and **code breaking** in WWII.
