

LO: To count on and back in tens and hundreds
(with 2 and 3 digit numbers)

Learning Task 1: Count on in 10s

____, _____, _____, _____, _____

Represent this by drawing dienes like above:

11, 21, 31, 41, 51

Complete this:

25, 35, 45, _____, 65, _____

125, 135, 145, _____, 165, _____

425, 435, 445, _____, 465, _____

446, 456, 466, _____, 486, _____

981, 991, _____, 111, 121, _____

Learning Task 2: Count back in 10s

Represent this by drawing dienes like above:

91, 81, 71, 61, 51

Complete this:

75, 65, 55, _____, 35, _____

175, 165, 155, _____, 135, _____

485, 475, 465, _____, 445, _____

468, 458, 448, _____, 428, _____

411, 401, _____, 381, 371, _____

Learning Task 3: Count on in 100s

100, 200, 300, _____, 500, _____

252, 352, 452, _____, 652, _____

485, 585, 685, _____, 885, _____

568, 668, 768, _____, 968, _____

Learning Task 4: Count back in 100s

800, 700, 600, _____, 400, _____

968, 868, 768, _____, 568, _____

653, 553, 453, _____, 253, _____

1251, 1151, 1051, _____, 851, _____

Learning Task 5: Complete the sequences

25, 35, _____, 55, 65, _____

97, 87, _____, 67, 57, _____

510, 520, 530, _____, 550, 560

710, 700, _____, 680, 670, _____

415, 515, _____, 715, 815, _____

871, 771, _____, 571, 471, _____

What comes next?

$$236 - 10 = 226$$

$$226 - 10 = 216$$

$$216 - 10 = 206$$

What comes next?

$$236 - 10 = 226$$

$$226 - 10 = 216$$

$$216 - 10 = 206$$

What comes next?

$$236 - 10 = 226$$

$$226 - 10 = 216$$

$$216 - 10 = 206$$

What comes next?

$$236 - 10 = 226$$

$$226 - 10 = 216$$

$$216 - 10 = 206$$

What comes next?

$$236 - 10 = 226$$

$$226 - 10 = 216$$

$$216 - 10 = 206$$

What comes next?

$$236 - 10 = 226$$

$$226 - 10 = 216$$

$$216 - 10 = 206$$
