

LO: To estimate the order of 3-digit numbers

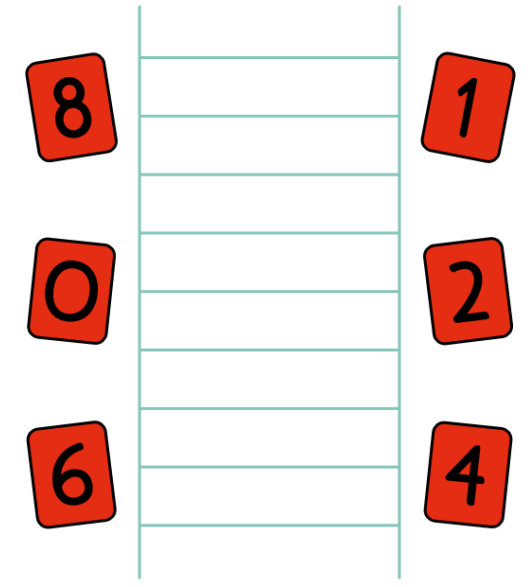

<https://video.link/w/aS8Ac>

Can you think of a number to make these correct?

_____ > 398

_____ < 398

Task 2

Using 3 digit cards create the largest and smallest possible numbers you can.

Put the largest number on the top and the smallest on the bottom.

Next, pick another 3 digit cards to create another number to fit on the ladder.

Repeat until the ladder is complete.

All the numbers need to fit in correctly from largest at the top to smallest at the bottom.

Task 3

Prove that 289 is closer to 300 than 315.
