

LO: To estimate number magnitude

Task 1

1) I am thinking of a number between 190 and 210.

What could my number be?

2) Write a silly guess for the triangle _____

3) Write a sensible guess for the triangle _____

Circle all the correct sentences:

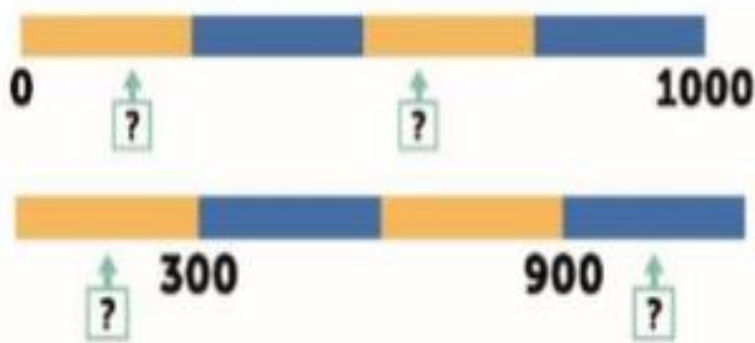

- It could be 440 because it's close to 450.
- 250 is a silly answer because it's not on the number line.
- It could be 401 because it's over 400.
- 440 is a silly answer because I don't like it.
- It could be 435 because it is bigger than 425.
- 360 is a silly answer because it is smaller than 400.

Task 2

Red reasoning

Think of a number that each of the ? could be.
Think of a number that each of the ? definitely cannot be.
Explain your reasoning for both.

These numbers could be.....

These numbers could not be.....
