

LO: Identify missing parts of a regrouped number in a variety of models

Learning Task 1

Work out the missing numbers.

$$84 = 60 + \underline{\quad}$$

$$70 + 14 = \underline{\quad}$$

$$44 = 30 + \underline{\quad}$$

$$96 = 90 + \underline{\quad}$$

$$4\underline{\quad} = \underline{\quad} + 14$$

$$6\underline{\quad} = \underline{\quad} + 24$$

Learning Task 2

Learning Task 3

These two calculations are the same, what is the missing information?

$$5 \text{ tens} + \underline{\quad} = 52$$

$$\underline{\quad} + 22 = \underline{\quad}$$

Learning Task 4

I have 17 ones and I am between 40 and 50. Who am I? How many tens do I have?
