LO: To develop estimation to support calculation

Learning Task 1: Estimate

1. $55 + 17 \approx$

2. $62 + 97 \approx$

3. $71 - 18 \approx$

4. $71 + 18 \approx$

Learning Task 2: Estimate

1. $556 - 127 \approx$

2. $338 + 227 \approx$

3. $845 - 249 \approx$

4. $147 + 125 \approx$

Learning Task 3: Estimate

1. $1626 - 1497 \approx$

2. $2366 + 1565 \approx$

Learning Task 4: Estimate

1. $79 + 18 + 29 \approx$

2. $3059 + 1606 \approx$

3. $25 + 398 + 549 \approx$

Destination Question

1  Emma is calculating

$$4536 - 1955$$

Which calculation should she use to estimate her answer?
