LO: to write an information text

Can you remember what features come before the main paragraphs in an information text?

- Title
- Contents
- Introduction

Can you fix this introduction?

- In Ancient Egypt pyramids were impressive stone structures located near the Nile. Some famous pyramids have survived for thousands of years and have provided interesting clues about these sandy structures.

Images with a caption

Slaves building a pyramid.

- Introduction
- Caption for picture

Order your sentences for paragraph 1 in a logical order that flows...

How were they built?

Evidence suggests that thousands of people were needed to build a pyramid since they were made from massive stone blocks that were difficult to move across the desert. As commanded by the pharaoh, thousands of slaves would cut up the blocks in order to slowly move them up the pyramid on ramps.

Does this order make sense?

- Women used to wear dresses. Children only started to wear clothes when they were 6. Women also used to wear jewellery and make-up.

Now it's your turn to write
out one of your paragraphs
