LO: To solve mixed additions and subtractions

Vocabulary:

ones

tens

hundreds

thousands

equal

addition

subtraction

addend

sum

minuend

subtrahend

difference

inverse

commutative

Think about the
learning we
have done this
week...

$$1729 - 361$$

compensation
place value
regrouping

regroup the minuend
equal difference

$$2355 + 455$$

next 10, next 100
compensation
complements
place value
regrouping

'Think 100' and 'Think 1000'
equal sum

$$3622 + 589$$

The most efficient/appropriate strategy for the calculation is...

because...

$$3622 - 589$$

The most efficient/appropriate strategy for the calculation is...

because...
