Can you think of any other homophones?

A **near homophone** is a word which is pronounced almost the same as another word but has a different spelling and meaning, e.g. **quiet** and **quite**.

In addition to the words above in bold, we have added more homophones into Week 2's dictation, so it would be a good idea to explore others:

-Look at Year 2's spelling rule 28 and 29 to explore more homophones: <https://spellingframe.co.uk/>

-Look at Year 3 and 4's spelling rule 21, 22, 23 and 34 to explore more homophones: <https://spellingframe.co.uk/>
