

Week 3

Note: The alternative 'Learning Review' blue spellings are on Pg.3

Double the consonant or not?

For words ending in a consonant, if the stress is on the consonant at the end, we double it before adding a suffix. Note: 'a, e, i, o and u' are vowels and all other letters are consonants.

stop (stress is on the 'p') - stopped / stopping

run (stress is on the 'n') - running / runner

clap (stress is on the 'p') - slapped / clapping

What other words can you think of that have these spelling patterns?
Have a good think as there are other double consonant words in this week's dictation!

Note: If the stress is on a sound before, we don't double the consonant, e.g.

sleep - sleeping

limit - limited / limiting

visit - visited / visiting

Dictation

I went to some beginner swimming lessons but I am not the fittest person. Sadly, I stepped into the pool and dropped my goggles. Stopping in my tracks I bent down to get them but I got scared and begged someone to get them for me! I found myself clapping as the goggles were grabbed and given back to me. Feeling a little faint, I fanned myself.
