

Year 6 Autumn Term Homework

Vital Homework
You **MUST** do these three tasks each week.

Reading
Please read for at least 20 minutes every day and record it in your home school diary.

Maths
Complete your weekly maths homework, mark it at home and return it to your teacher by Wednesday of the following week.

Spellings
Please practise your weekly spellings in a variety of ways ready for dictations in school every Thursday.

Suggested Additional Activities
Aim to complete as many of these as you can by Christmas

Geography
(1st half term)
Research famous mountains or volcanoes and present your research in an interesting way e.g. model, mini book, slide show, video, holiday brochure, map.

Science
(1st half term)
Collect or find 5 different leaves and identify what type of tree they come from. You might find this booklet useful shorturl.at/hlMN6

Art/Computing
Take perspective photographs and upload to the Year 6 Google Classroom Stream for other people in the year group to see (Remember to check any photos are eSafe before posting them).

Science
(2nd half term)
Make your own battery!
<https://video.link/w/VYZ0d>

Science
(2nd half term)
Virtually explore making different circuits here shorturl.at/cegZ3

What makes bulbs brighter and dimmer?

History
(2nd half term)
Research the role of Bletchley Park and Alan Turing in WWII. Think carefully how you will display your findings.

PLP-Independence
Help prepare a meal at home. Share the recipe or photos with us.

PLP-Collaboration
Learn and play a new game with your family and/or friends.

Wellbeing
Try using an Alphabreath at home! Notice how you feel. [Video link: shorturl.at/cjou1](https://shorturl.at/cjou1)

Up to 2HP will be awarded for each piece of completed homework.
