

During our first half term, we have noticed that ordering decimals is something we need more practise with. Order these decimals in ascending order (smallest to biggest) for question A and descending order (biggest to smallest) for question B.

During the half term break, see if you can complete some of the other homework tasks such as the science or topic.

Ordering Decimals

L151

A) Write each set of decimals in increasing order.

1) 14.78, 46.1, 25.5, 14.8, 32.32

2) 37.44, 9.32, 16.49, 9.67, 37.91

3) 24.34, 24.84, 24.1, 24.11, 24.7

4) 32.8, 20.8, 47.4, 4.2, 47.5

B) Write each set of decimals in decreasing order.

1) 27.27, 4.12, 27.77, 39.01, 4.18

2) 38.3, 2.24, 9.67, 15, 42.3

3) 8.9, 21.6, 14.3, 17.8, 21.1
